

September 7, 2017

D & D Carpet Cleaning serviced my home on August 30, 2017. I have two young boys and the stained carpet to prove it but was very reluctant to try yet another carpet cleaning service. In the past, I have used both steam and dry carpet cleaning services in search of the method that actually removed stains from the carpet AND prevented the stains from returning. Also, my oldest son has allergies so finding a company that did not use harsh chemicals was also important to me. D & D Carpet Cleaning addressed both of my concerns.

David arrived to do the job and carefully moved all pieces of furniture to actually clean the entire carpet. After he had cleaned under the furniture he then placed the furniture back in its original position with pieces of aluminum foil under the furniture legs to protect the newly cleaned carpet. David also cleaned my area rug for free and used essential oils to deodorize the room. He worked diligently the entire time and when he left my house did not smell like a chemical factory.

I would highly recommend D & D Carpeting Cleaning for an organic and chemical free experience. It has been over 2 weeks and I am still enjoying stain free carpet because David's four point cleaning process really removed the stains! Thanks David for restoring my carpet while protecting my family from harsh chemicals.

Best Wishes,

  
Shanta Tisdell
